As I spend more time being part of HF Holidays, I fall deeper in love with the great outdoors. Step out, feel the wind on your face, gaze down on valleys and streams, sidestep a cow, or beat the windy moors. Somewhere My Juv feels good.

I certainly consider myself lucky to be part of a team of people who want to share their passion and encourage people out into the fresh air to take in the beauty of our natural world.

Whether you’re putting on your boots for the first time, long to conquer a mountain, hop across Scottish islands, meander alongside a bubbling brook in Exmoor, my team has set out to provide the perfect walking holiday for you.

There simply is no better way to discover that corner of the UK you have always wanted, or enjoy the view from the top of Glen Coe having truly earned it.

Q&A WITH SEAN, OUR CHEF AT DOLGELLAU HALL, DOLGELLAU

Q: How important is good food for HF Holidays’ guests?

A: Very important. Holidays are all about indulgence and food, so we make sure our guests are well fed and satisfied. We cater to all dietary needs and preferences, including gluten-free and vegetarian options.

CATERING FOR YOUR NEEDS

We want to ensure all our guests enjoy the same great dining experience whenever they stay with us, regardless of their dietary needs. We’re proud to boast of our country houses being officially recognised as gluten-free. We are the only hotel operator to have done so.

WILDLIFE on our doorstep

The UK’s National Parks harbour some of Britain’s most celebrated and rarest species of flora and fauna – our Natural World breaks are the perfect way to enjoy them.

The Lake District is known the world over for its vast stretches of sparkling waters, rolling hills and winding trails. A closer look at its wetlands, woodland and crags, however, reveals bittern, blackcaps and peregrine falcons. Nesting visitors include osprey and sandwich tern and the Alpine cinquefoil can be found at higher altitudes, clinging to the wild mountain ledges above the Borrowdale and Buttermere valleys. And what trip to any British woodland area would be complete without a peek into the amazing world of fungi? Not only can you learn about their bizarre behaviours and importance to other wildlife, but you’ll also be able to take some amazing photos!

The natural world, however, goes beyond the things we can see around us. With open skies miles from any built-up areas, the skies don’t get much clearer than they do in tranquil spots like Exmoor or the South Downs, making these peaceful locations excellent places to look upwards and indulge in a spot of stargazing!

CHOOSING THE LEVEL OF YOUR WALKS

Walk at a relaxed pace, often visiting places of interest along the route. Distances are quite short and paths and gradients generally easy.

Good paths but walks are generally long. Some walks, particularly in mountain areas, may have sections over rough or steep terrain.

Well-defined paths often on graded paths and along rugged coasts, which may be tough or steep and will require reasonable fitness.

Long distances in remote country and through terrain. Sustained ascents and descents and occasional sections of some steep ground.

Expect rocky terrain, sustained ascents & descents, and some easy scrambling. You need a good head for heights.

Expect long, strenuous walks and stamina required. Expect long, strenuous walks and some scrambling. You need a good head for heights.
